Almost 1,000 Subscribers Connected. Life-changing Reviews!

"I can't tell you how thankful I am that we have **Singing River Connect**! Last night while my family and I were in our storm shelter, as the storm was passing over us, we were able to call family members to check on them and keep track of the weather warnings. Before broadband, we literally were disconnected from the outside world during any severe weather. Thank you Singing River!"

My SR Connect App & the Ultimate Wi-Fi Experience

How many times have you been asked, "**What's the Wi-Fi name and password?**" by guests in your home? With the **My SR Connect app**, our subscribers can easily set up guest networks for family and friends who are bringing devices into their homes.

Using the free app, subscribers can:

- Create up to five separate guest networks.
- Share the network name/password through a text message.
- Print a QR code and put it on your refrigerator for easy access

Subscribers can upgrade to the **Ultimate Wi-Fi Experience** for \$7/month which adds ProtectIQ and ExperienceIQ, enhancements for network-level protection, and greater parental controls.

Tap into the Share Network button to get access to your unique QR Code.

Then tap the share via text button.

Fun tip: Screen shot the QR code and print it for guest to scan when they arrive.

Our Technicians are the BEST!

"I want to thank Singing River Connect and their installation person. The crews are working hard and fast. They did a great job getting to the house.

The installation tech was amazing. He gave my husband multiple choices on how to install it. He dug a trench, buried shielding, and replaced everything perfectly. He went so far as to wrap every end and cord. Answered every question and was super polite.

Thank you for taking such great care of our home. By the way, the internet service is AWESOME!"

Our Customer Service Reps are the BEST!

"Meagan has got to be the sweetest person to answer the phone! Bless her, she is so calm and helpful and I'm like a jackrabbit sitting on

G waiting on O.

Every time I see a post I try to jump on to apply for a connection."
